

Hard-Cooked Eggs

READY-TO-USE EGGS. NO MESS.

Crystal Lake hard-cooked eggs are clean, graded shell eggs that come fully cooked and peeled, packaged in either pails with brine solution or in a modified atmosphere pack, and are sold by the count or by the pound for foodservice and food manufacturers. Eliminate the hassle of peeling and concern with the dark ring around the yolk from overcooking. They are ready to eat with no further preparation. Great in diced form for salad bars, these can also be included in traditional egg salad or simply sliced for Cobb salads.

Crystal Lake hard-cooked eggs are cooked, peeled, chilled and packaged under FDA oversight. They are also Kosher Certified by Orthodox Union Supervision and produced under a routine quality inspection in accordance with good manufacturing practices.
