

Pre-Cooked Eggs

READY-TO-USE EGGS. NO MESS.

Crystal Lake pre-cooked eggs are made from USDA-inspected pasteurized eggs, fully cooked and made into patties, omelettes, or scrambled eggs that are individually quick-frozen. These are packaged in a variety of sizes by count or by pound and are ready to heat and serve. Great for industrial catering, institutional feedings, or as quick service “on-the-go” sandwich, our pre-cooked eggs are as convenient as they are tasty.

All Crystal Lake pre-cooked eggs are cooked, frozen, and packaged under FDA oversight with in-house routine quality inspections in accordance with good manufacturing practices.
